

ITEC Course Brochure for 2018-2019

Total Courses: 386

Sl No	Course Details	Aim & Objective	Partner Countries	Max Seats / Utilized	Countries Participated
1	Institute: NATIONAL INSTITUTE OF EDUCATIONAL PLANNING AND ADMINISTRATION Course: INTERNATIONAL PROGRAMME IN EDUCATIONAL MANAGEMENT FOR MYANMAR EDUCATIONAL ADMINISTRATORS Start Date: 01-04-2018 End Date: 30-04-2018	1. Understanding present issues related to higher education 2. To share international experiences in higher education 3. Provide an exposure to the functioning of higher education institutions of india 4. Innovations and reforms in higher education across the world	MYANMAR	22 / 22	MYANMAR
2	Institute: GUJARAT STATE FERTILIZERS & CHEMICALS LTD Course: SPECIAL COURSE FOR TUNISIAN ENGINEERS FROM TIFERT Start Date: 08-04-2018 End Date: 19-04-2018	To provide training to engineers from tifert	TUNISIA	12 / 11	TUNISIA

SI No	Course Details	Aim & Objective	Partner Countries	Max Seats / Utilized	Countries Participated
3	Institute: THE ENERGY AND RESOURCES INSTITUTE Course: WORKSHOP ON MAINSTREAMING CLIMATE ACTIONS IN DEVELOPMENTAL POLICIES Start Date: 09-04-2018 End Date: 13-04-2018	In recognition to the importance of climate change impacts on undermining countries efforts to achieve the sustainable developmental goals the course will provide and in depth understanding on various aspects of climate change and its implications for sustainability and developmental policies.	Vietnam, Afghanistan, Sri Lanka, Indonesia, Thailand, Sri Lanka, Bangladesh, Sri Lanka, Afghanistan, Afghanistan, Sri Lanka, Nepal, Malaysia, Maldives, Myanmar, Philippines, Afghanistan, Papua New Guinea, Korea (ROK), Fiji, Iran, Bhutan, Mongolia, Myanmar, Laos.	30 / 20	AFGHANISTAN BHUTAN FIJI MYANMAR NEPAL PHILIPPINES SRI LANKA THAILAND VIETNAM
4	Institute: NATIONAL INSTITUTE OF SECURITIES MARKETS Course: PROGRAMME ON POOLED INVESTMENT VEHICLES Start Date: 07-05-2018 End Date: 11-05-2018	To familiarize participants with functioning of and regulatory perspective on mutual funds (mf), alternative investment funds (aifs), real estate investment schemes (reits) and infrastructure investment trusts (invits)	ALL COUNTRIES	20 / 0	-

SI No	Course Details	Aim & Objective	Partner Countries	Max Seats / Utilized	Countries Participated
5	Institute: NATIONAL INSTITUTE FOR MICRO SMALL & MEDIUM ENTERPRISES Course: PROMOTION OF BASKET & MAT WEAVING ARTISAN ENTERPRISES Start Date: 14-05-2018 End Date: 06-07-2018	Aim: The programme is concerned for the officials of eritrea, who are engaged in the development and promotion of artisan enterprises. The proposed training programmes focuses on modern innovative strategies, which will be more attractive, productive, impressive and profitable for basket and mat weaving artisans. Objectives: . Understand and appreciate the need for development of artisan enterprises . Scan policies and programmes for promotion of artisan enterprises . Diagnose and find solutions for development of artisan enterprises. . Design, implement and monitor strategic interventions . Develop skills for product development, packaging and presentation	ERITREA	30 / 25	ERITREA
6	Institute: NATIONAL INSTITUTE OF SECURITIES MARKETS Course: OVERVIEW OF GLOBAL SECURITIES MARKETS Start Date: 04-06-2018 End Date: 08-06-2018	The prime objective of the course is to give an overview of the global securities markets, with a thrust on the indian securities market covering the aspects of regulatory environment, new products and investment avenues.	ALL COUNTRIES	20 / 0	-

18	Institute: INDIAN INSTITUTE OF SCIENCES, BANGALORE Course: INTRODUCTORY TRAINING COURSE IN NANOFABRICATION TECHNOLOGIES Start Date: 18-06-2018 End Date: 06-07-2018	Through the course proposed herein, centre for nano science and engineering wishes to extend the research facilities to scientists from itec countries. The objective of this course will be to train scientists on both the theoretical and practical aspects of nanofabrication technologies starting from the cleaning of silicon wafers to the packaging of devices.	ALL COUNTRIES	30 / 18	BANGLADESH ETHIOPIA MAURITIUS SRI LANKA VIETNAM
19	Institute: NATIONAL INSTITUTE OF TECHNICAL TEACHERS TRAINING AND RESEARCH Course: MODERN LIBRARY PRACTICES Start Date: 20-06-2018 End Date: 14-08-2018	To develop appropriate competencies for facilitating e-access to it based knowledge - streamlining library processes, promoting and enhancing reading habits among the users - managing and developing web / traditional resource collections, services and facilities. Objectives: understand the development, organization and communication of knowledge, to apply competencies and knowledge that are essential for providing, managing, and designing information services in different information environments. Use open source tools, for lms and digital library. Define and articulate the need for information. Identify a variety of types and formats of potential sources, for information. Know the variety of information retrieval methods, through online or in person. Use internet facility, for information retrieval and communication. Project web resources, from the external threats. Appreciate the use of e-learning. Develop and host web pages. Develop the professional attitudes as well as the interpersonal, intrapersonal and interdisciplinary skills, needed to communicate and collaborate with colleagues and in information users. 49	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: CERTIFICATE COURSE IN POWER DISTRIBUTION MANAGEMENT Start Date: 16-07-2018 End Date: 17-08-2018	Aim: Power distribution forms most crucial chain of the entire power business. If this segment is able to demonstrate commercial viability and maintain uninterrupted power supply to customer, there is every possibility that the entire power sector will yield positive results. Therefore, there is necessity to modernize and adopt best practices in power distribution sector. The best technology application and practices will improve quality and reliability of power supply to customer besides, help in reduction of losses. Refurbishment of hv & lv distribution system will increase customer satisfaction on the hand and increase the revenue of the utility on the other. Objectives: 1. Impart knowledge on operation and maintenance of distribution systems. 2. Orient the participants with advance technologies in power distribution sector. 3. Educate the participants on technological developments in management of power distribution sector	ALL COUNTRIES	25 / 16	AZERBAIJAN BANGLADESH BHUTAN CAMBODIA ETHIOPIA MOZAMBIQUE SEYCHELLES SUDAN TAJIKISTAN TANZANIA

50	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: CONCEPT TO COMMISSIONING OF SOLAR POWER PLANTS Start Date: 16-07-2018 End Date: 17-08-2018	Aim: Electricity has been the backbone infrastructure facility of any country with its manifold applications covering almost every aspect of human life style, resulting in galloping demand requiring huge generating capacity in addition to enough reserve margins in the system. Fuel choice itself is a vital consideration in creating power stations, in as much as, every unit that is generated pollutes the atmosphere further, unless cdm practices and clean and green power generation is resorted to, to the hilt. But non-availability of such fuels in the required quantities, operational constraints leading to poor efficiency and low plan load factor, seasonal generation at high costs inadvertent supply at voltages beyond the reach of load dispatching are some of the problems associated with clean power technologies, making them unsuitable for firm power supply Objectives: 1. To familiarize on the developments in solar power generation technologies. 2. To make participants aware about design concepts and o&m practices of solar power generation. 3. To discuss best practices in O&m and protection for solar power plant.	ALL COUNTRIES	25 / 14	AZERBAIJAN BANGLADESH CAMBODIA DEMOCRATIC REPUBLIC OF CONGO KENYA LEBANON MAURITIUS MONGOLIA SUDAN

61	Institute: RESEARCH AND INFORMATION SYSTEM FOR DEVELOPING COUNTRIES Course: SUSTAINABLE DEVELOPMENT GOALS Start Date: 06-08-2018 End Date: 17-08-2018	In the training programme participants would be given a comprehensive orientation of the sdgs to help them to absorb the priorities of sustainable development in their development plan in a holistic manner. The emphasis would be to make the participants understand the technical content of the course and its application in real life situations. The training programme seeks to expose the participants to the nuances of the sustainability debate among state and local actors, with special focus on local challenges and opportunities for implementation of sdg in their sub-national strategies, regional context and their integration globally. The programme emphasizes on specialized areas like formulation of local plans, creating knowledge and information base (data and indicators) and tools for assessment. The programme would also encourage interaction and conversation among participants about grassroot issues and the way forward for implementing the sdgs by 2030. The course would create an important platform for the exchange of knowledge as the course lectures are complemented by study tours and field visits that would provide practical and learning exposure. 87	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: DESIGN, ERECTION, OPERATION, MAINTENANCE AND PROTECTION OF EHV SUBSTATIONS Start Date: 27-08-2018 End Date: 05-10-2018	Aim: With phenomenal growth in the power to be transferred, it has become essential to transmit power with least interruptions and minimum losses requiring to revise the transmission voltage levels from the present levels to 765 kv and above with optimum number of transformations, to ensure least possible losses. Ehv substations are the nerve centers of the transmission system by controlling and protecting the entire transmission network. The ehv sub-stations are essentially needed at load centers to facilitate transformation of power from ehv to voltages of utilization. Longer ac ehv lines have a tendency to carry lesser loads and cause problems of over voltages at the receiving ends on switching and during light loads, necessitating establishment of new switching stations sometimes. Of late, the regulators are also enforcing higher performance standards for transmission utilities to comply with. Penal provisions for non-compliance are in the offing. Efficient and economical design, erection and operation and maintenance procedures of substations without any compromise become paramount in providing reliable supply besides prolonging the life of equipment. Meeting this changing scenario, requires special skills on the part of the executives of the transmission sector to handle the system efficiently and economically and making it essential to undergo training programmes oriented towards subject Specific. 88	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: FINANCIAL MANAGEMENT & ACCOUNTING STANDARDS FOR POWER UTILITIES Start Date: 27-08-2018 End Date: 05-10-2018	Aim: The fundamental issue of power sector is the paucity of funds for capital intensive power projects. The generation, transmission and distribution projects require capital and talented project engineers, planners and finance managers to keep pace with development. As financing is one the basic inputs for any capital intensive project and is complex in nature, the source of financing both short term and long term, need to be planned thoroughly and systematically. The cost of capital and consequently the necessity of learning the techniques of project formulation and viability on technical, financial and economic fronts have become crucial for the success of the projects. Transparency, efficiency and economy being three important factors in the operation of any company, finance and accounts will act as a tool for transparency. Ultimately, finance and accounting is the language of economic activity and in that power distribution is no exception. Therefore, dynamic power company requires vibrant and innovative accounting team. Objectives: 1. Familiarize the participant with institutional framework and financing mechanisms 2. Equip the participant about project formulation financing tools and monitoring methods. 3. Impart knowledge on standards and ifrs	ALL COUNTRIES	25 / 10	DEMOCRATIC REPUBLIC OF CONGO MOZAMBIQUE NIGERIA TAJIKISTAN TANZANIA ZIMBABWE

95	Institute: NATIONAL INSTITUTE FOR MICRO SMALL & MEDIUM ENTERPRISES Course: CAPACITY BUILDING FOR PROVIDING ALTERNATIVE LIVELIHOOD OPPORTUNITIES FOR POOR (CBALO) Start Date: 03-09-2018 End Date: 26-10-2018	With the changes that are taking place in the external world, there has been a paradigm shift in the job/livelihood market. Poverty is no longer a rural phenomenon and increasingly we find attention being focused on urban poor who are often the migrants. One also notices an increasing shift from agriculture to manufacturing and services sector. It is expected that traditional sources such as agriculture will have limited potential to generate new livelihoods. Promoting livelihood in such a situation remains a challenge. Developing countries needs to generate livelihood opportunities to sustain its economy. To impart knowledge in self help group concept Develop skills in identifying livelihood opportunities for poor To impart knowledge on role micro finance institutions in empowering poor through providing credit To gain insight in understanding challenges and opportunities faced in providing livelihood opportunities Develop skills in managing livelihood projects Develop skills in resource mobilization for livelihood initiatives. 98	Institute: CENTRE FOR DEVELOPMENT OF ADVANCED COMPUTING MOHALI Course: SPECIALIZED TRAINING PROGRAMME IN HEALTHCARE TECHNOLOGIES (BIO-MEDICAL EQUIPMENT AND MEDICAL INFORMATICS) Start Date: 03-09-2018 End Date: 26-10-2018	Aim: many a time, valuable medical equipment are lying idle in a hospital or healthcare centre for want of simple repairs or replacement of defective part. This affects the quality of healthcare being provided in that hospital/centre adversely. In order to improve the quality of healthcare, it is imperative that medical equipment is operational all the time. This can be achieved by having a ready availability of technically trained healthcare professionals to carry out timely repair, service& maintenance of the equipment. We have also designed telemedicine module in order to enhance knowledge and leverage technology in order to increase access to healthcare. This program is designed to create a pool of such trained manpower in developing countries. Objectives - Equip and train health care professionals to '&Acirc;&cent;understand how to operate a large variety of medical equipment '&Acirc;&cent;initiate and carry out schedule maintenance program '&Acirc;&cent;perform preventive maintenance of medical equipment '&Acirc;&cent;troubleshoot and repair faults '&Acirc;&cent;maintain and use medical equipment optimally '&Acirc;&cent;basic knowledge of the telemedicine standards '&Acirc;&cent;differentiate and apply telemedicine technology and practices in a variety of health care environment. 151	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: EMERGING TRENDS IN RURAL ELECTRIFICATION & POWER MANAGEMENT Start Date: 22-10-2018 End Date: 14-12-2018	Aim: Electricity is an indispensable requirement for all activities of human life. It has been recognized as a basic human need and a crucial infrastructure on which the socio-economic development of an economy depends. Rural electrification is viewed as a prime mover for rural development and the basic pre-requisite for all industrial activities besides contributing significantly to increase agricultural productivity, creating employment and income generation. However, distribution of electricity to rural areas through grid connectivity is more complex by virtue of its nature as it involves high cost & technical losses, besides demand are very low and scattered. In these circumstances, decentralized generation and distribution is the convenient mode for supply of electricity to remote and far-flung rural areas. In recent times, attempt has been made to harness and manage the distribution of electricity at local level with people participation for adequate distribution at affordable prices Objectives: 1. Familiarize participants with recent practices in rural electrification and emerging trends in rural power management. 2. Impart knowledge on planning and management for rural electricity distribution sector. 3. Discuss different issues about power distributed power generation options for rural electrification. 153	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: PLANNING AND MANAGEMENT OF POWER TRANSMISSION AND DISTRIBUTION SYSTEMS Start Date: 22-10-2018 End Date: 14-12-2018	Aim: Power is a vital infrastructure for economic development. It is most capital intensive infrastructure. Accelerating economic growth and achieving higher standards of living depend upon the availability of adequate and reliable power at an affordable price. To make power sector commercially sound and self-sustaining, efficient transmission and distribution management systems and adoption of modern technologies are fundamental. Obsolescence in design, construction practices and technologies, inadequate inter-regional transmission links will lead to poor quality, unreliable power supply, and high energy losses Inter regional imbalances. It has become, utmost important to review the existing practices technologies adopted to optimize and modernize them, so as to supply electricity at affordable cost to all categories of consumers to help bolster economic growth. Objectives: 1.Impart knowledge on operation 2. Maintenance of power transmission distribution systems. 3.Orient the participants with the latest technologies, methods and equipment including it applications in power transmission. 4. Distribution system design 5. Discuss about the commercial aspects of power transmission 5. 160	Institute: ARUN JAITLEY NATIONAL INSTITUTE OF FINANCIAL MANAGEMENT Course: PROJECT & RISK MANAGEMENT Start Date: 05-11-2018 End Date: 23-11-2018	Building on the principles of economics, finance, insurance, psychology and decision sciences, this programme aims to develop an integrated view of the different risks faced by an organization. Through a critical examination of theory, research and best practices, you will develop a knowledge and understanding of how to measure and manage a number of risks and how to implement and contribute to an integrated risk management strategy within an organization. Operating managers, in order to be effective and result oriented should be finance savvy, able to understand and present, drive and measure business plans in terms of financial figures and communicate in a common 'business language' through financial figures. Introductory programme on finance can be instrumental to enhance the profile of operating managers. Finance cuts cross levels and businesses and has unifying influence. Further, operating managers need to be equipped with a financial decision making tool kit which helps them to identify businesses to get into, take pricing decisions, decide on the product mix, identify areas for cost reduction and take a make or buy decisions. This program aims to meet the requirements of operating managers in different functional areas who would like to be well versed with the introductory nuances of finance. 189	Institute: CENTRAL INSTITUTE OF FISHERIES TECHNOLOGY Course: PROTOCOLS FOR THE PRODUCTION OF HIGH VALUE SECONDARY PRODUCTS FROM INDUSTRIAL FISH AND SHELLFISH PROCESSING Start Date: 26-11-2018 End Date: 22-12-2018	Commercial fish and shellfish processing generate significant quantities of waste which can be generated as raw material for many high value secondary products. Chitin, chitosan, glucosamine hydrochlorides, peptides, hydrolysates, silage are to name a few. These have applications in feed formulations, as dietary substances, as pharmaceuticals and as nutraceuticals. The course aims to equip the participants with process and protocols for developing high value secondary products from fish processing. Hands on training will be given in the pilot plant of the institute. The participants will also be trained in the analytical procedures for the quality evaluation of the products. Institute visits will also form a part of the training. The objective of the programme is to enhance the knowledge base of the participant on the avenues for total utilisation of the fishery resource and waste minimization during post harvest fishery operation. 198	Institute: V.V.GIRI NATIONAL LABOUR INSTITUTE Course: GENDER ISSUES IN THE WORLD OF WORK Start Date: 03-12-2018 End Date: 21-12-2018	Aim It is evident that optimal utilization of human resource is essential for achieving inclusive growth as well as promoting gender equity. Patriarchal mindset, roles and responsibilities assumed by the society often place women in inequitable positions, which is often reflected in the world of work. Therefore, creating enabling environment for all is essential for achieving gender equity Globally, gender mainstreaming is an important part of policy discussions. Nations are recognizing the importance of gender parity and taking necessary steps to bridge this gaps. Access to quality education, skill development, decent jobs, sharing of family responsibilities and effective implementation of existing affirmative policies are some of the initiatives for narrowing this gap. Implementation of affirmative policies will positively change the individual mindset and behavior in the world of work and this will be positively reflected in the behavior of individuals in the family, community, society, and nation and consequently worldwide. It is in this context, that the v.V. Giri national labour institute is organizing the international training programme on gender issues in the world of work with the objectives of promoting gender equity in the world of work Objectives	ALL COUNTRIES	33 / 32	BOTSWANA BURUNDI CAMBODIA COTE D'IVOIRE ETHIOPIA GHANA INDONESIA KENYA KYRGYZSTAN LIBERIA MAURITIUS NIGER SOUTH SUDAN SRI LANKA SYRIA TAJIKISTAN TRINIDAD & TOBAGO UGANDA UZBEKISTAN VIETNAM ZIMBABWE

259	Institute: NATIONAL INSTITUTE FOR MICRO SMALL & MEDIUM ENTERPRISES Course: INTELLECTUAL PROPERTY MANAGEMENT STRATEGIES FOR SMES (IPMSS) Start Date: 21-01-2019 End Date: 01-03-2019	Aim: In recent years, intellectual property rights (ipr) management has become increasingly important, both for large & small and medium-sized enterprises. The main categories of intellectual property rights include: patents, copyright, trademarks, gi, design rights, etc. Ipr provides incentive for creativity and the disclosure of information and plays a significant role in encouraging innovations in the form of product/process development leading to technical advancement. The intellectual property system is also useful to universities and r&d organizations first as a source of information from where further knowledge can be created and can be used to plan for further studies in the area of concern and as literature conveying recent discoveries and general information of interest. Secondly, it can be used as a source for products and services when their industrial or commercial exploitation is used for social, cultural or economic gains. In the view, management of intellectual property rights at large & small and medium-sized enterprises, universities and r&d organizations is very important in the light of present globalization and liberalization of economies all around the world. The programme is intended to discuss different aspects of ipr and how to develop ip strategy and integrate it in the sme business plans. Also, case studies, wherever necessary would be considered to better elaborate the perspective. 291	Institute: V.V.GIRI NATIONAL LABOUR INSTITUTE Course: HEALTH SECURITY AND PROTECTION OF WORKERS Start Date: 04-02-2019 End Date: 22-02-2019	Aim Market-oriented reforms in the health sector have led to low efficiency of resource allocation and utilization, increasing inequality as well as reducing the ability of the poor to access health care services. This situation creates greater health vulnerability for those who are at greater risk of disease but not under the cover of social protection, such as workers in the informal economy. Objectives • to identify the growing occupational and safety risks of workers due to informalisation of work. • to understand the issue of health protection and promotion at workplace. • to understand the need for universal maternity benefits to include women in the workforce. Understand the need for health insurance of workers in order to meet health related insecurities. 347	Institute: INTERNATIONAL MANAGEMENT INSTITUTE Course: CERTIFICATE COURSE IN STRATEGIC MANAGEMENT AND SUSTAINABLE DEVELOPMENT IN EMERGING MARKETS Start Date: 05-03-2019 End Date: 13-04-2019	In this six weeks certificate course on strategic management and sustainable development for emerging markets the emphasis will be to provide an in-depth understanding of concepts, tools, and techniques for strategic management involving identification of external opportunities and internal strengths, making strategic choices and allocation of resources. This course gives sufficient emphasis on development of global strategy to manage in the global economy as well as emerging markets. The course will emphasis on sustainable development which rests on three fundamental pillars: economic growth, ecological balance & social progress. This course will introduce students to the concepts of sustainable development and the role of ethics and social responsibility in various aspects of governance and decision-making. The course aims to provoke students to think critically about ethical behaviour in life and provides and overview of the kinds of challenges that global managers face while equipping them with the tools for managing the challenges in a responsible and effective manner. The objective of this course are: - To provide understanding of the fundamental concepts of strategy formulation and strategy implementation. - To provide understanding of unique characteristics of emerging markets with a focus on home grown emerging giants: challenges and opportunities faced as they go global. - To gain insights into the key areas of sustainable development, corporate social responsibility and ethics with their increasing relevance in today's world.
