250	Institute: ARUN JAITLEY NATIONAL INSTITUTE OF FINANCIAL MANAGEMENT Course: PROJECT & RISK MANAGEMENT Start Date: 03-02-2020 End Date: 21-02-2020	Building on the principles of economics, finance, insurance, psychology and decision sciences, this programme aims to develop an integrated view of the different risks faced by an organization. Through a critical examination of theory, research and best practices, you will develop a knowledge and understanding of how to measure and manage a number of risks and how to implement and contribute to an integrated risk management strategy within an organization. Operating managers, in order to be effective and result oriented should be finance savvy, able to understand and present, drive and measure business plans in terms of financial figures and communicate in a common 'business language' through financial figures. Introductory programme on finance can be instrumental to enhance the profile of operating managers. Finance cuts cross levels and businesses and has unifying influence. Further, operating managers need to be equipped with a financial decision making tool kit which helps them to identify businesses to get into, take pricing decisions, decide on the product mix, identify areas for cost reduction and take a make or buy decisions. This program aims to meet the requirements of operating managers in different functional areas who would like to be well versed with the introductory nuances of finance.
