53	Institute: NATIONAL INSTITUTE FOR MICRO SMALL & MEDIUM ENTERPRISES Course: EXPORT OPPORTUNITIES FOR SMES IN THE DEVELOPING COUNTRIES Start Date: 07-08-2023 End Date: 25-08-2023	Aim . Stronger participation by smes in global markets creates opportunities to scale up, accelerate innovation, facilitate spill-overs of technology and managerial know-how, broaden and deepen the skillset, and enhance productivity. Global value chains (gvcs) offer new opportunities for smes to integrate the global economy, as exporters, suppliers to large firms that export, and importers of competitively priced foreign inputs and technologies. The main aim of administering this course to the developing countries is to impart policy approaches that have proven successful to strengthen smes participation in international trade Objectives . To achieve sustainable economic growth and employment in developing countries through sme participation in international trade. . Develop skills among smes in the nitty-gritty of international trade. . To disseminate the policy initiatives of the developing countries for the promotion of foreign trade. . To ascertain the potentiality of smes and to link them to a nations larger developmental vision encompassing export strategy and poverty reduction. . To understand the wto agreement. This has created a framework for a more open global trading system, which has implications for smes. 86	Institute: NATIONAL INSTITUTE FOR MICRO SMALL & MEDIUM ENTERPRISES Course: PROMOTION OF MICRO ENTERPRISES Start Date: 11-09-2023 End Date: 29-09-2023	Aim Employment generation and poverty alleviation are the two major issues before the government of every developing country. Since agriculture can no longer absorb the gainful employment needs of the growing population, occupational transfer to secondary and tertiary sectors has become inevitable. The concept of income generation by economically weaker sections of society through the setting of micro enterprises is slowly but steadily gaining momentum in all these countries. Indian has a remarkably successful record of servicing targeted groups such as the educated unemployed, tribes, ex-servicemen, the physically challenged, and women through special programs and support services. Justifiably india looks forward to opportunities to share its experiences with other developing countries. Objectives . Identify suitable income-generating activities requiring low investment, matching the skills of target groups. . Understand the techniques of promoting micro-enterprises among various target groups. . Acquire skills to monitor programs of micro-enterprise promotion, implementation, and management. . Share the indian experience with other developing countries in the development of micro-enterprises.	ALL COUNTRIES	30 / 21	GHANA KENYA MALAYSIA MALI MEXICO NIGER SRI LANKA TAJIKISTAN ZIMBABWE

Small & medium enterprises (sme) sector is one of the largest contributors to world economy. They comprise over 90 percent of the complete enterprises in most economies. They are responsible for generating impressive employment growth and high amount of industrial production. Considering the potential contribution smes can make towards the country economies, the governments are working to make the sector stronger and more developed. In india, several new initiatives are taken by ministry of msme for the development and enhancement of competitiveness of smes. Recently a new msme innovative scheme was introduced to promote and support untapped creativity and to promote adoption of latest technologies in msme that seek the validation of their idea at proof of concept level. The schemes is a combination of incubation, design intervention and ipr protection initiatives to enhance msme competitiveness and transform them as national and international champions. Ni-msme having rich experience in the areas of innovation, incubation & ipr proposes the programme to share the knowledge & experiences among developing countries. Objectives . To promote a culture of innovation and creative problem solving through knowledge sharing and collaboration amongst industry, academia, government institutions, research laboratories etc. . To share the indian best practices in innovation, incubation & ipr	ALL COUNTRIES	30 / 27	BANGLADESH BOTSWANA ETHIOPIA GHANA KENYA KIRIBATI MALAYSIA NIGER RUSSIA SOUTH SUDAN SRI LANKA UGANDA

148	Institute: REC INSTITUTE OF POWER MANAGEMENT & TRAINING Course: TESTING, OPERATION, MAINTENANCE AND PROTECTION OF EHV SUBSTATIONS AND LINES Start Date: 20-11-2023 End Date: 08-12-2023	Aim With phenomenal growth in the power sector, it has become essential to revise the transmission voltages from ehv to uhv and hvdc. To ensure least possible losses and reliable operation knowledge of tesing and advance maintenance practices plays very important role. Ehv substations are the nerve centers of the transmission system for controlling and protecting the entire transmission network. It requires special skills on the part of the executives of the transmission sector to handle the system efficiently and economically. This programme is oriented towards subject specific knowledge on testing, o&m and protection of ehv substations and lines. Objectives 1. Orientation towards testing of ehv substations equipment. 2. Equip with necessary skills in the operation and maintenance of eht substations including protection aspects 3. Adopting best operation and maintenance practices and modern condition monitoring techniques. 323	Institute: CENTRE FOR DEVELOPMENT OF ADVANCED COMPUTING NOIDA Course: SPECIALISED PROGRAMME ON ARTIFICIAL INTELLIGENCE-SPANISH Start Date: 27-03-2024 End Date: 16-04-2024	Aim-this course aims to present in depth knowledge and applications in artificial intelligence and case studies based on neural networks and deep learning.The course includes the implementation of neural components and as well as applying deep learning in real world data sets using modern deep learning packages.Emphasis on the latest ai computing platforms,applications and trends to automate the ai based application processes.An important aim of the course is to learn practical implementation skills along with the above concepts,principles and methodologies.Objective-develop an understanding of modern concepts in ai and where they can be used.Design,implement and apply novel ai techniques based on emerging real world requirements.Introduce major deep learning algorithms,the problem settings and their applications to solve real world problems.Understanding of fundamental issues and challenges of data science and deep learning,data,model,selection complexity etc. Identify the deep learning algorithms which are more appropriate for various types of learning tasks in various domains.Implement recurrent neural networks in python using the pytorch and tensorflow libraries and train them with real world datasets.
