This course presents an overview of the principles and practices of various digital investigation techniques related to mobile forensics.2. The objective of this program is to emphasize the fundamentals and importance of cyber forensics.3. Participants will learn different techniques and procedures that enable them to perform a cybercrime investigation.4. This course focuses mainly on the analysis of physical storage media and the volume analysis of the storage devices.5. It covers the major phases of digital investigation, such as preservation, analysis and acquisition of artifacts that reside in various digital devices.6. The objective of this program is to emphasize the importance of computer & mobile forensics and to prepare participants to conduct a digital device-based investigation in an organized and systematic way.8. This course will provide theoretical and practical knowledge, as well as current research on cyber forensics and investigation.9. Upon completion of the course, participants can apply open-source forensics tools to perform digital investigations and understand the underlying theory behind these tools. 122	Institute: INDIAN INSTITUTE OF MANAGEMENT, BODHGAYA Course: LEADERSHIP IN A VUCA WORLD Start Date: 14-09-2026 End Date: 18-09-2026	In today's VUCA (volatility, uncertainty, complexity, and ambiguity) world, social and organizational landscapes are marked by unpredictable, constantly changing, and rapid change. Mindfulness, the practice of maintaining a non-judgmental awareness of the present moment, plays a pivotal role to reach a balance between the inner self and outer world. The ability to foster inner strength, collective resilience, and mindful leadership is more critical than ever as it emphasizes self-awareness, empathy, and ethical values, sense of connectedness, and promotes well-being. Numerous research investigations have established that mindfulness yields both physical and psychological benefits for individuals. The program uses a holistic approach that equips leaders to create a positive impact, by aligning their actions with their core values and a sense of purpose. This course emphasizes on three key facets like inner self, outer self and spiritual self.	ALL COUNTRIES	35 / 0	-

142	Institute: GOA INSTITUTE OF MANAGEMENT Course: TOURISM DEVELOPMENT, MANAGEMENT AND REGULATION Start Date: 29-09-2026 End Date: 12-10-2026	To enable participants to understand the macroeconomic linkages of tourism, particularly in small and tourism-dependent economies. To assess the impacts of tourism on employment, income, regional development, and external balances. The programme will also examine contemporary trends shaping tourism, including digital platforms, changing consumer preferences, public-private partnerships, and diversification into wellness, medical, cultural and hinterland tourism. The course places emphasis on regulatory and ethical dimensions, including the management of externalities, preservation of heritage and ecological assets, crowd management, and responsible tourism practises aligned with international norms such as the unwto global code for ethics for tourism. Issues related to trafficking, drugs, and social vulnerabilities associated with tourism are addressed through case-based discussions. Through design-thinking exercises, site-visits, and group projects, participants are encouraged to apply conceptual frameworks to real-world settings, focusing on destination planning, access and mobility, information systems, and community involvement. The overall objective is to equip participants with analytical tools and practical insights that can inform tourism policy formulation, destination development, and regulatory decision-making in their respective contexts. 174	Institute: V.V.GIRI NATIONAL LABOUR INSTITUTE Course: INTERNATIONAL TRAINING PROGRAMME ON INNOVATIVE LEADERSHIP-DRIVING CHANGE AND FOSTERING GROWTH Start Date: 02-11-2026 End Date: 20-11-2026	Globally, the major transformations such as digital platforms, automation and other innovations are changing the world of work and also the e-governance and service delivery mechanisms accelerate the massive transformations. Technological advancements eliminate old jobs and lead to the emergence of new forms of employment, increased automations, changing skill sets in work processes, the emergence of the gig economy, and the dominance of non-standard forms of employment relations, so on. Moreover, the outbreak and spread of covid pandemic emerged more challenges in jobs and income of the people and it requires special attention to revisit the labour and employment scenario in the developing countries. This training will benefit to pinpointing the major pathways that may be navigated by the public policies related to labour to ensure a favourable and brighter future of work. It is also very obvious that we need collective action and proactive involvement of all concerned stakeholders. Specifically, the prominent role of India in managing transformations in the world of work, jobs and technology undertakes utmost importance.	ALL COUNTRIES	35 / 0	-

254	Institute: INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY, BANGALORE Course: CERTIFICATE PROGRAMME IN DIGITAL PUBLIC INFRASTRUCTURE (PRIORITY TO LAO PDR) Start Date: 18-01-2027 End Date: 29-01-2027	The digital public infrastructure (dpi) programme is designed to equip participants with a comprehensive understanding of the concepts, principles, architecture and practical implementation on dpi as a transformative enabler of inclusive digital societies. The programme aims to build participants knowledge of foundational dpi components, including digital identity systems, registries, data-sharing frameworks, trust-enabling infrastructure, interoperable payment systems, and open discovery and fulfillment platforms. Through a structured blend of conceptual learning, technical overviews, and global case studies, participants will gain insights into how dpi ecosystems are designed, deployed and scaled to support citizen-centric service delivery, economic participation, and social inclusion. The programme introduces the role of digital public goods (dpgs), private sector innovation and cross-sectoral integration in building sustainable and interoperable digital ecosystems. Participants will explore government-to-person (g2p) systems and the open2p framework, gaining practical knowledge of how digital platforms can be leveraged to improve the efficiency, transparency and accessibility of public service delivery. The programme also seeks to develop an appreciation of global dpi adoption by examining successful implementations and lessons learned from countries such as Brazil, Singapore, Thailand, the Philippines, and Morocco. By analyzing real-world deployment experiences, challenges and best practices, participants will be better prepared to contribute to the design, implementation, governance and scaling of dpi initiatives with their respective organizations and countries. Ultimately, the programme aims to foster a	ALL COUNTRIES	30 / 0	-
