

**TENTATIVE SESSION SCHEDULE**  
**for**  
**Online Training Course on “MPLS Fundamentals”**

**Day 1**

- Session 1: Registration
- Session 2: Inauguration
- Session 3: Introduction to Data Communications, Understanding Network & Network Technologies
- Session 4: OSI Model & TCP/IP Network Model
- Session 5: TCP/ UDP/ IP

**Day 2**

- Session 6: Evolution and Features of MPLS
- Session 7: MPLS Architecture
- Session 8: Label Switching and Forwarding

**Day 3**

- Session 9: Label Distribution Protocol (LDP)
- Session 10: MPLS VPN – Part 1
- Session 11: MPLS VPN – Part 2

**Day 4:**

- Session 12: MPLS Traffic Engineering – Part 1
- Session 13: MPLS Traffic Engineering – Part 1
- Session 14: IPv6 over MPLS

**Day 5**

- Session 15: Virtual Private LAN Service
- Session 16: MPLS and Quality of Service
- Session 17: Test
- Session 18: **Feedback & Evaluation**
