Participants:	Mid-level Policy Makers and Election officials from EMBs and international election organisations.
Venue:	Hall No…………., IIIDEM Campus, Dwarka, New Delhi
Coordinators:	Praskanva Sinharay, Baskaran M, Kriti Saxena

Brief Course Outline

1. **Objective:**

   The course aims to introduce the participants to the guiding principles and types of voter registration (VR), collection, preparation and purification of voter's data, use of technology in VR, and other processes to avoid electoral fraud. The course also focusses on developing a shared understanding of VR principles and processes through presentations of participating countries.

2. **Contents of the course:**

   Focussing on the question of electoral integrity, the course addresses one the foremost aspects of election management viz. Voter Registration. The sessions cover the various aspects of VR such as the legal framework of VR, types and steps of VR, preparation and periodic purification of electoral roll, processes of data collection and its maintenance, information security vis-à-vis VR, voter education for inclusion in the electoral roll, and use of technology for VR.

3. **Learning Outcome:**

   The participants learn about Voter Registration and its operational intricacies.

4. **Important information:**
   - This course will be conducted in physical mode at IIIDEM Campus, New Delhi
   - The course is for Mid-level Policy Makers and Election officials (5-10 years of experience) with good working knowledge of English
   - Nominees should either be working or be expected to work in Election Management Bodies and international election organisations.
