## Annexure 1

### NATIONAL INSTITUTE OF TECHNICAL TEACHERS' TRAINING & RESEARCH, BHOPAL

#### “Department of Management.”

**\*Course Name: International Collaboration for Inclusive Education**

1.

2. **Duration: 03 Feb – 14 Feb 2024(Contact Mode)**

3. **Justification for offering the course (Max. 200 words):**

The world has become a place of social interaction. With enhanced accessibility it is of great importance to collaborate and benefit each other. In this mutual gain it is immensely vital to cross the national frontiers for development. The course intends to cover concepts of inclusive growth, inclusive education methods, Inclusive education in India, international agencies supporting international collaboration on inclusive growth, inclusive education in terms of research, knowledge incubation and Technology transfer.

All these discussions will benefit in enhancing the cross boundary associations for collaborations thereby benefiting the globe.

4. **Rationale (Max. 200 words):**

Technical Institutions are undergoing tremendous changes after new policies and changes from regulatory bodies. Information acceleration further added the complexity of the role of the academicians and administrators. There are many challenges like shortage of funds, increasing competition from National and international institutions, shortage of skilled and trained faculty and staff, shortage of resources are facing by institutions. On the other hand,

there is a pressure on the institutions perform better and take steps so that the maximum placement and quality teaching and learning. There is a demand for quality services. At the same time, there is a need to enhance effectiveness and efficiency in using existing resources to make the best students/ products/services for the industry. There is also a pressure on the institutions to become global and also meet local needs. Academicians and administrators play a vital role in this work. The globally proclaimed standards for the students have also raised the benchmark for the academicians and administrators. To strengthen the world of academics its important to collaborate and explore avenues that can facilitate the research and technical knowhow of academicians and administrators. This course provides an opportunity to enrich the tie-ups and associate for a better tomorrow.
