

Annexure-C

<i>Days</i>	<i>Particulars</i>
Day 1	• Introduction • Solar Radiatiopn Basic
Day 2	• Basic of semiconductor solar cell • Solar cell and module characterization
Day 3-4	• Module mounting system • Balance of system • Solar water pumping system design
Day 5-6	• Solar water pumping system installation and O&M • Agrivoltaic system installation and O&M
Day 7	• Internal Assessment & Country Presentation • Administrative Formalities • Valedictory Session
